“Along with The Statue of Liberty National Monument and the Ellis Island Immigration Museum, Sports Museum of America is a critical component to the vibrancy of downtown Manhattan. The Partnership with Statue Cruises is a natural extension of our strategy to successfully align ourselves with other critical elements of lower Manhattan,” said Philip Schwalb, the Founder and CEO of Sports Museum of America.

For more than 120 years The Statue of Liberty National Monument and Ellis Island have welcomed millions of immigrants and visitors to New York Harbor with the promise of possibility. That pursuit of the American dream has fueled some of the greatest athletes in the history of sports. Those athletes are celebrated in the Museum’s “Breaking Barriers” gallery, which highlights amazing tales of athletes who overcame prejudice due to immigrant status, race or gender, to become the best in their respective sports.

“Lower Manhattan has emerged from some very difficult times and is transforming into a major destination for visitors to the city. It is a privilege for Statue Cruises to be partnered with the Sports Museum of America to encourage more tourists to discover downtown,” said Rafael Abreu, Director of Sales and Marketing of Statue Cruises. Statue Cruises is the concessioner authorized by The National Park Service, Department of the Interior, to serve the public at The Statue of Liberty National Monument and Ellis Island.
